NATIONAL BREED SALE

» 31ST JULY 2026 «

The Brahman Breeders Society of Zimbabwe
presents with pride:

**45 ELITE
Brahman Bulls**

**BRAHMAN
BRED FOR ZIMBABWE
THE CROSSBREEDING KING**

Zimbabwe Herd Book
58th National Breed Sale
2026

Fellow breeders, honoured guests, buyers, and sellers, on behalf of the Zimbabwe Herd Book and CC Sales, I warmly welcome you to our 58th National Breed Sale.

In the year ahead, we face many challenges—including a looming drought with a super El Niño predicted, and international tensions affecting fuel and fertiliser prices. Yet, I know the determination of farmers in this country. We will be back next year, smiling at the achievements of another season behind us, because the cattle industry is a long-term investment and our focus must remain on a better future.

Once again, the sellers have produced an exceptional display of animals we can all be proud of. It is inspiring to see what we can achieve when we stand together as Zimbabweans.

A special thank you goes to our team at ZHB under the stewardship of Mario Beffa. Their work continues to enhance data collection, contributing to improved accuracies of estimated breeding values (EBVs) and giving you, as buyers, greater confidence in your selections. EBVs remain the best measure of genetic potential for breeding traits, and I encourage you to use these tools wisely.

May you have a blessed day and a prosperous cattle breeding season ahead.

John Crawford, Vice Chairman, Zimbabwe Herd Book

Wt	Actual weight at birth, 200, 400 and 600 ± 100 days				DOB Date of Birth
Ratio	Adjusted weight expressed as a percentage of the average of the contemporary group				AFC/AFL/AFK Age at First Calving/Lambing/Kidding in months
Rank	Ranking of the individual / Number in the contemporary group				ACI/ALI/AKI Average Calving/Lambing/Kidding Interval in days
Scrotal Size at months (cm): *Only shown for bulls				NC/NL/NK	Number of Calvings/Lambings/Kiddings
Estimated Breeding Values *Only for breeds undergoing routine genetic analysis					
BW	WW	YW	FW	MA	Milk SS
An animal's breeding value is its genetic merit, half of which is passed onto its progeny. Estimated from its performance relative to its contemporaries and from its relatives. Should be compared to the EBVs of other animals of the same breed or the breed average.					
The “accuracy” figure produced with each EBV provides a measure of the stability of the EBV and gives an indication of the amount of information that has been used in the calculation of that EBV					
Breed Average EBVs (Average performance of the breed)					
Comments: Breeders' comments

Registrations

The Herd Book and status of the stud industry is growing and in July 2026, was represented by 261 breeders across 19 breeds (two goat, one sheep and 16 beef) with 26,495 registered animals (see Table below).

Registered stud breeds in Zimbabwe showing number of breeders and active animals over one year of age, July 2026

Breed	Breeders	Animals	Breed	Breeders	Animals
Boer Goat	2	28	Dorper	5	1027
Kalahari Red	2	23			
Angus	2	34	Mashona	9	1127
Brahman	95	8566	Nguni	1	23

D/Master	3	438	Sussex	2	80
Limousin	2	34	Tuli	27	2706

Our service provider, the Agricultural Business Research Institute (ABRI) has made significant strides in the upgrading of their suite of software with the launch of BreedLOGIC, the data lookup facility which will replace Internet Solutions, as well as the imminent launch of HerdMASTER 6.

Beef School 2025

The Beef School was held once again in Bulawayo in September last year. This marked the 13th iteration of Beef School under the theme "**iSmart**" - representing Impactful, Insightful, Scientific, Modern, Adaptive, Regenerative, and Technology-driven approaches to beef production.

The three-day intensive programme delivered cutting-edge knowledge in modern beef production techniques. The curriculum emphasised the integration of technology and scientific approaches to create more adaptive and regenerative farming practices.

In her opening address, Anne Cooke, Chairperson of ZHB, commented:

"This year's theme challenges us as farmers to reflect on how we can extract the best value from our livestock enterprises. It reminds us of the importance of embracing change, adopting appropriate modern technologies, and equally sticking to the basics while remaining cost-conscious in a challenging economic environment."

Inaugural Small Stock School

In an exciting new development, ZHB launched its inaugural Small Stock School, strategically scheduled for the final day of Beef School and representing ZHB's expansion into comprehensive livestock education beyond cattle farming.

The Small Stock School focused on goat and sheep management, addressing the importance of these animals in Zimbabwe's agricultural landscape. It also provided practical knowledge for farmers looking to diversify their livestock operations.

According to Dr Mario Beffa, ZHB Manager, the Beef School is not just an enriching educational event; it is an opportunity for producers to network, share experiences, and advance their knowledge. With a curriculum that addresses the pressing needs of the industry, attendees were equipped with the tools to enhance their cattle operations and contribute to the growth of Zimbabwe's beef industry.

The two Schools featured a wide range of local, regional and international presentations, including two online presentations from Australia. Topics covered fertility, veld management, nutrition, animal health, genetics, economics, the use of artificial intelligence in agriculture, and technologies for remote farm management.

A highlight of the programme was Prof Esté van Marle-Köster's presentation on crossbreeding, which tied in perfectly with the showcasing of the Simbra breed at the School.

The Year of the Simmental and Simbra

Every year, the ZHB selects a cattle breed to be showcased and in 2025, it was the turn of the Simmental and Simbra. These sister breeds are renowned for their fertility and carcass attributes in Zimbabwe's diverse climatic conditions. Cattle from both breeds were on display during the event and their attributes were discussed in a dedicated session by leading breeders.

Industry Support and Sponsorship

Once again, event sponsors set up display stands and their commitment and unwavering support provide invaluable foundations for the livestock industry in Zimbabwe. According to Dr Beffa, these sponsors play an essential role in fostering innovation and sharing knowledge among producers:

"Together, we are building a stronger, more sustainable livestock sector that benefits not only livestock farmers but also contributes significantly to our nation's economy."

Both events attracted significant support from major players in Zimbabwe's agricultural sector, including National Foods Stockfeeds, Red Dane Agri Solutions, Trouw Nutrition, FeedMix, Chemplex Agro Pharma, Hyperfeeds Animal Nutrition, Front-Line Farming, Capital Foods, Nashcon, Coopers Animal Health, Chems Africa, Veterinary Distributors, CBC, and Shumba Group.

Zimbabwe Herd Book Awards 2025

The Herd Book presented its Awards for the third time at Beef School 2025 and the winners were as follows:

Performance Recording

- **4.5 Stars (Silver):** Oscar Jambo – Jambo Tuli Stud
- **4 Stars (Silver):** Anne Cooke – Zimbo Tuli Stud
- **4 Stars (Silver):** Jan Kageler – Oldonyo Tuli Stud

Fertility

- **Very Large Herds:** Colin Langton – Langton Boran Stud
- **Large Herds:** Lianne Herbst – LJ Simbrah Stud
- **Medium-Sized Herds:** Andrew Herbst – MH Boran Stud
- **Small Herds:** Duncan Middleton – Mary Ellen Beefmaster Stud

Beef and Small Stock Schools 2026

This year, the combined Schools will be held in Harare from **15th to 17th September** at the Lozino Warehouse, ART Farm.

- **15th & 16th September:** Beef School, featuring a breed showcase by the Zimbabwe Boran Breeders Society.
- **17th September:** Small Stock School (all-day event), featuring a breed showcase by members of the Dorper Society.

Highlights from the 57th National Breed Sale held in July 2025

By Julie Havercroft

Zimbabwe's cattlemen continue to show their preference for Brahman cattle, as demonstrated at the 57th National Breed Sale that concluded in late July. The Deputy Minister of Lands, Agriculture, Fisheries, Water and Rural Development, Hon. Davis Marapira, himself a keen livestock producer, officially opened the event after a tour to view the animals on offer.

The numbers tell the story of the Brahman breed's enduring appeal: 27 Brahman bulls changed hands during the event, with the day's standout sale reaching USD 40,000. This top price was attained by Paul and Grant Pilosof of Ruvala Brahman, whose bull (Lot 35) was purchased by Sifela Brahman.

The Matabeleland-based Pilosof family have been a fixture of the Zimbabwean stud breeding industry for several decades. Their three Beefmaster bulls fetched the highest breed average of USD 12,000.

The Brahman overall averaged an unbelievable USD 8,000. A large yarding of 10 Tuli bulls sold very well, averaging USD 4,200.

The Dorper sheep also had a very good day, and an excellent yarding was on offer, with the top priced ram fetching a record USD 4,300 price tag.

This annual event showcases the finest pedigree animals our breeders have to offer and it draws serious cattle producers from across the country, whether they're looking to buy or sell quality livestock.

Originally a traditional mid-year gathering, the Sale has adapted to modern times by incorporating online bidding, a development spurred initially by the Covid pandemic and now sustained by improved technology access and strong interest from Zimbabwe's diaspora community.

Breed	Number sold	Top price, USD	Average price, USD
Dorper Sheep			
Dorper ram	6	4,300	2,633
Ewe	3	700	666
Ewe pregnant	3	500	466
Bulls			
	49	40,000	6,709
Beefmaster	3	13,500	12,000

Simmental bull	2	3,750	3,500
Tuli bull	10	5,500	4,200
Heifers			
	64	4100	2,469
Boran	3	700	700
Boran - pregnant	3	2,100	1,900
Brahman heifer	50	4,100	2,754
Simbra	4	2,400	2,025
Tuli	4	1,100	1,100

CONDITIONS OF SALE

1. The conditions of sale set out below, as well as any announcements made by the auctioneers at the commencement of and during the sale, shall be binding on all Sellers and Purchasers.
2. Subject to the Seller's reserve, if any, the lot shall be knocked down to the highest bidder, who shall become the Purchaser (also referred to as the buyer). In the event that any dispute arises between the bidders in regard to any lot, that lot shall, at the discretion of the Auctioneers, be put up again and resold. The Auctioneers reserve the right to regulate the bidding, to refuse the bid of any person, and to vary the order of sale.
3. All items are sold for cash, payable to the auctioneers at the conclusion of the sale.
4. Buyer's cards will be issued upon receipt of a SURETY DEPOSIT, the value of which may vary from sale to sale and will be determined by the Auctioneers. In this instance, the deposit is USD XXXX.
5. No goods may be removed until they have been paid for in full.
6. All bids are exclusive of VAT (should it apply), as well as auctioneers' fees and commissions.
7. All sales are final and *voetstoets*, which means that the purchaser accepts the state or condition that the items or goods are in.
8. The purchaser shall not be entitled to possession of any of the goods until the total purchase price of all his/her purchases has been fully paid in cash. In the event of the purchaser failing to pay the full purchase price of any lot within the prescribed time, or failing to comply with any other terms of sale, the auctioneers shall retain a possessory lien on all the lots of the purchaser and have the right to resell such lots for and on behalf of the purchaser by public auction or private treaty, without notice of any kind to the purchaser. Should the auctioneer resell any lots, the proceeds therefrom (after deducting commission and costs) shall be credited to the original purchaser's account, and the original purchaser shall forthwith on demand pay to the auctioneers, as damages, any deficiency arising from the resale.
9. The auctioneers act merely as agents for and on behalf of the seller, and no lawsuits or claims whatsoever can be made against them. In the event of the seller or the auctioneers, personally or on behalf of the seller, instituting legal proceedings against the purchaser, the following shall apply:
 - Such proceedings may, at the election of the seller or the auctioneer, be instituted in a magistrate's court having jurisdiction over the person of the purchaser.
 - The seller or the auctioneer, as the case may be, shall be entitled to claim payment of legal costs from the purchaser on an attorney-and-client basis.

- The purchaser shall be deemed to have selected and appointed as his *domicilium citandi et executandi* the address inserted by him/her on the buyer's card signed by him/her.
- A certificate issued under the hand of the auctioneer setting forth the purchaser's indebtedness in respect of the sale shall constitute conclusive proof of such indebtedness by the purchaser, and shall further constitute a liquid document for the purpose of provisional sentence, summary judgment, or otherwise. The purchaser, should he/she be the successful bidder on any lots in a representative capacity, hereby binds himself/herself as surety and co-principal debtor for all obligations of the entity that he/she represents.

10. Any bona fide error of any kind whatsoever made by the auctioneers in conducting the sale shall not bind the auctioneers or the seller.
11. The Auctioneers accept no liability whatsoever for any statements or descriptions relating to the animals or other merchandise which may appear in the catalogue, advertisement, or other notice/publication. The Seller, who will supply the details as to pedigree, ages, dates of service, and other particulars in the case of animals, or relevant information in the case of other merchandise, is alone responsible for ensuring that the correct descriptions are given and that the correct animals or other merchandise offered for sale are produced under their particular lot numbers.
12. The auctioneers shall not be responsible for any damage caused by or to any lot whilst it is under the supervision or control of them or their servants.
13. Any undertaking by the auctioneers or their servants to take charge of any lots before or after the sale, or to forward them to their destination, shall be deemed to have been made purely for the convenience of the purchaser and without any obligation of whatsoever nature on the part of the auctioneer.
14. The entries made in the auctioneer's roll book shall be conclusive evidence of the facts therein stated and shall be binding upon the Seller and the Purchaser.
15. The sellers and purchasers acknowledge that they shall pay the auctioneer's commission as laid down, and hereby authorise the auctioneers to deduct from the sale proceeds, or add to the buyer's invoice, any amounts of commission due.
16. No variation of these conditions of sale shall be of any force and effect unless reduced to writing and signed by the parties to the sale.
17. The conditions of sale contained herein shall apply to all sales, whether those effected at the auction or at any other time by the auctioneers.

A sound, functional ram that exemplifies the traits required for profitable and sustainable sheep production. He carries a strong masculine head, an exceptional topline, and outstanding capacity, combining structural correctness with the ability to thrive under practical farming conditions. Sired by Crossfire (2250220026), a ram originating from a dam line renowned in South Africa for exceptional pelvic measurements, he brings genetics associated with improved lambing ease, reproductive efficiency, and maternal performance.

This bull combines superior genetics with excellent conformation. Dam is a top-producing cow that puts each of her calves into the top drawer! Sire is MAS 28, making him a paternal half-brother to the 40k bull. This bull has the style, thickness, and balance to make him a definite herd sire prospect. Weight (03/05/2026): 766 kg. Scrotal: 44 cm.

Sir Noble 19/23 3 (23-0022 LBB) is one of the first progeny ever offered at our NBS from the famous Noble Junior (19-0023 LBB), a bull which doesn't need superlatives to describe him, a bull from a prolific Bos-Blanco dam, a bull standing firm on his four feet. A medium-frame bull which can easily take over any stud herd as a herd sire. He is offered here with his 2 paternal brothers, Lots 52 and 53, who are our photo bulls: LBB 23-0017 and LBB 23-0034 respectively.

LBB Bos 23/28 (23-0028 LBB) is a compact bull with breed character, a deep, deep red bull with Bos-R-Cherokee genetics on the dam side, and the dam has an excellent ICP of 372. He is sired by a Reeba bull, AMV 17-298, which we imported from South Africa. This is a herd sire in the making. An excellent underline with good bone and fabulous traits. We have retained semen for future use. An elegant sire, not to be missed. He is offered at this NBS with his half-paternal brother, Lot 51, Rushmore 3 (23-0055 LBB).

Moonlight is a well-balanced, medium-framed, compact bulla flashy youngster, fully speckled, and only turning 3 in September. He is a son of Madiba, an extremely beefy sire who gave us very beefy bulls and solid breeding females. Moonlight's dam, Daffodil, was out of Ruby 632, a bull which formed the base of our herd, and whose dam, Ruby 432, was Pretoria Champion Female in 2000, giving us 13 calves. Daffodil also came out of an excellent female line, calving: 09/21, 09/23, 09/25, NIH.

Rushmore 3 (23-0055 LBB) is a moving train, very active and a no-nonsense bull, dominant in his character, sired by the Reeba bull AMV 17-298. He is offered here at the NBS with his paternal brother, Lot 22. He oozes aura and dominates his environment, a herd sire in the making, deep, deep red with a well-defined, muscled dark neck, exhibiting dark pigmentation all over his body and bloodline like his brother, Lot 24. We have definitely returned the semen for future use. He weighed over 870 kg a month ago before the NBS. What a bull, don't miss such a marvel at this year's NBS.

Sir Noble 19/23 2 (23-0017 LBB) is what the market has been waiting for, a replica of his sire, Noble Jr (19-0023 LBB), exhibiting proper breed character and stamping authority. Has a powerful head, unequivocal fleshing and marbling characterizing his grandsire, Mr V8 458/7 (Noble). He is supported by a tremendous Loriza cow, NM 16-59, which has produced 6 successive herd sires and 3 are herd sires wherever they are: LBB 19-0010, stud sire; LBB 20-0040, stud sire; LBB 22-0023, our herd sire; and LBB 23-0017 is an awaiting 4th stud sire. We have returned semen for future use.

Sir Noble 19/23 4. If the market was waiting for the magic of blending American genetics with our African environment, they shouldn't look any further than this tough, beefy, moving mountain; yet he is short-legged and bonny like a Simbra, maybe a Simmental, yet he is a Brahmana true value of the king of crossbreeding. Sired by Noble Jr (19-0023 LBB), supported by a Bos-Blanco genetics dam, our picture-frame bull. We have kept semen for future use, and we are prepared to negotiate with the eventual winning bidder for core/multiple ownership on this bull.

Inspector's choice of our top bull available today. A very fertile dam, 11 calves with a good ICP. His sire was a bull we bred from CVA 04-712 and WAA 07-58. WAA 07-58 was the best cow in our herd by far. An extremely fertile cow with three times the breed average EBV for milk. A rare combination. This bull is a well-balanced bull with a strong head and good masculinity about him. He is the full package.

Another certain favourite, deep red colour with speckles on the dewlap. This bull is double-bred to WAA 07-58 on the maternal and paternal granddam sides. The best cow we ever had in our herd, we have retained every heifer she produced who in turn have produced their own top-quality progeny; look at 23-0703 REE as a perfect example of this. On the sire side of this bull's bloodlines, we have MAS 07-18 and CVA 04-712. The bull himself is a very well-balanced bull with good masculinity, a strong topline and hindquarters, clean underline, and great testicles. Don't miss this bull. Current weight: 650 kg.

Definitely one of the breeder's favourites (even since birth). This bull comes from very good genetics, MAS 07-18 and CVA 04-712 are both proven top sires, but WAA 07-58, his maternal granddam, what a cow! Starting at this bull's wide muzzle, strong and impressive head, tremendous masculinity through the neck and shoulders, strong topline and hindquarters with a good set of testicles, and a clean underline. A great bull on offer.

HHB 23-0025 is a deep, polled red bull with an excellent, wide head which carries through to his wide shoulders, broad back, and rump. He has capacity, depth, and a great set of testicles measuring 42 cm. His dam is from two different SA breeders and his sire, HHB16-0209, is a polled cherry red semen donor. WHY am I selling HHB 23-0025? Look at his dam's ACI and his own performance figures.

The largest and best of our bulls on offer today. Again from HBH 04-858. 858 has done an amazing job for us in both the sires and heifers we have retained. I am unable to get any more semen for this bull, so this is the last of a great bull's lines. I wouldn't miss out on any of his sons. A very respectable ICP from his dam.

A powerful, well-grown bull displaying exceptional depth of body, natural muscling, and strong breed character. His dam has an ICP of 347, is 10 years old with 8 calves, and is due to calve this year. He has been used in our stud and he is the first progeny we have had from Ditsim FAP18-68; we are pleased with their weaning weights and 400-day and 600-day weights off the veld.					

SPOT ON

THE RAIN-RESISTANT TICK KILLER

Spot On pour on has many advantages:

- Does not wash off in the rain so is effective when the ticks are at their worst
- Easy to apply
- Controls all ticks including blue ticks
- No need for water
- Used in the control of flies and lice in addition to the ticks

Reg No: 93/80.16.13/9087

HR (VET)

SUPADIP

THE EXTRA POWERFUL TICK KILLER

- Can be used where ticks are resistant to other dips (amitraz based & pyrethroids)
- Suitable for areas where there is a high tick challenge
- Controls all ticks including blue ticks
- Eradicates ticks, mange mites and lice
- Protects sheep from maggot fly infestation

Reg No: 93/80.16.12/9345

A very well-balanced, beefy, and correct Red Angus bull from strong South African bloodlines. Ideal for crossbreeding with Brahman and indigenous-type breeds for superior feedlot performance and fertility. PLEASE NOTE: The dam was purchased with limited information on previous calving performance, hence the incomplete calving data; she is, however, still in the herd and productive at 10 years old.

ZIMBABWE BEEF

PRODUCERS' SOCIETY

INVITATION TO JOIN ZBPS

scan here to join

Established in 2022, the Zimbabwe Beef Producers Society (ZBPS) represents beef producers nationwide. Recognized by the Ministry of Agriculture and a member of the Livestock and Meat Advisory Council (LMAC), the ZBPS advocates for all beef producers including communal, small-scale, and commercial farmers, as well as stud breeders in all provinces. Affiliated with the Zimbabwe Herd (ZHB), the ZBPS fosters a sustainable beef industry driving economic growth and food security. As the leading voice for Zimbabwe's beef producers, the ZBPS maintains strategic relationships with key government departments, cattle feed suppliers, and veterinary product manufacturers.

OUR SERVICES

Advocacy:

Engage with policymakers to support beef industry-friendly policies.

Technical Support:

Offer training and assistance in breeding, nutrition, health, and marketing.

Market Access:

Facilitate domestic and international market opportunities for members.

Input Supply:

Provide quality inputs at competitive prices through supplier partnerships.

Financial Services:

Deliver financial literacy training and collaborate with institutions for member financing.

Networking:

Host events and workshops to connect members with industry experts and peers.

ANNUAL SUBSCRIPTION

USD20 per member

Ecocash Biller: 074908
